IISC is hosting a Biennial Conference to support grassroots efforts to manage invasive species in Indiana. We recognize the positive impacts local organizations have and the necessity of local work and influences. We plan to emphasize those existing efforts, as well as support growth of additional grassroots work and agency partnerships across Indiana. If you would like to support our efforts to provide a forum for education, discussion and resource sharing please refer to the event sponsorship opportunities listed on the left.

Please see the IISC Sponsorship Package details for sponsorship benefits.

Event sponsors will be recognized on event marketing materials. The deadline to be properly recognized and included in marketing materials is February 1, 2018. Please email Mike Warner with your contribution, company logo and contact information. Thank you for your support.
